

The enjoyment of the highest attainable standard of health is one of the fundamental rights of every human being without distinction of race, color, religion, sex, sexual orientation, national origin, physical or mental handicap, marital status, military or political affiliation, and economic or social condition. To this end, Team Select Home Care is committed to providing excellent patient-centered health care essential to the improvement of a client's physical and psychosocial condition. At the same time, we recognize and respect the broad base of client rights, in all care and service delivery, and the need to effectively conduct all business and direct care activities related to this care in an ethical manner. All patients are given a copy of the mission and vision statements.

Team Select Home Care does not discriminate against age, race, color, religion, sex, sexual orientation, national origin, mental or physical handicap(s), marital status, military or political affiliation or any other legally protected class in the hiring of employees or the treatment of clients.

Furthermore, Team Select Home Care respects the autonomy and privacy of the client and family to make decisions and choices affecting their present and future health status. Team Select Home Care continually seeks new ways and means of being responsive to the ever-changing health needs of the community. An adjunct to this concept is the essential role of evaluation of Team Select Home Care's services and improving those services.

**Team Select Home Care's Governing Body hereby adopts a mission statement based on the above philosophy.**
