# Eligibility & Mid-Year Changes

### Benefits Eligibility

If you work an average of 30 or more hours per week during your first six-month measurement period, you'll be considered a 'full-time' employee for health benefits coverage during the stability period. Your ongoing eligibility will be determined by the Standard Measurement Period. (Please note, there is also a one-month administration period following your measurement period.)

Eligible participants include employee, spouse, domestic partner (affidavit required), and dependent children up to age 26.

- The coverage you elect during Open Enrollment begins **December 1, 2024**.
- As a variable hour/PRN employee, coverage begins after you satisfy the new benefit eligibility waiting period.
- Coverage ends if you no longer meet eligibility requirements, contributions are discontinued, or the Group Insurance Policy is terminated.

### Changing Your Benefits Outside Of Open Enrollment

The benefits you elect during the **2024-2025** benefits plan year will remain in effect through **November 30, 2025**. You cannot make changes to the benefits you elect until the next open enrollment period unless you have a qualifying event. The Health Insurance Portability And Accountability Act of 1996 (HIPAA) provides employees additional opportunities to enroll in a group health plan if they experience a loss of other coverage or certain life events. If you are declining coverage at this time for either yourself or your eligible dependents, you may be able to enroll yourself and/or your eligible dependents in coverage at a later date, if there is a loss of other coverage. You have the right to elect coverage during the plan year if your or your dependent's Medicaid/Children's Health Insurance Program (CHIP) coverage terminates due to discontinuation of eligibility under the program or if you become eligible for a Medicaid/CHIP premium assistance subsidy (if available in your state) providing you request enrollment within 60 days of the loss of coverage or eligibility for premium subsidy.

### Qualifying Life Events

A qualifying event is a personal event that may require you to either add or remove coverage for yourself and/or your dependents.

Qualifying Life Events include:

- Marriage, divorce, or legal separation
- Birth or adoption of a dependent child
- Death of a dependent spouse or child
- Gain or loss of coverage for you or your eligible dependents
- Reaching age 26 for dependent children

### Important Deadline For Qualifying Event Changes

You must make any coverage change within 30 days of the qualifying event. Report this change to Human Resources, with as much information as you have, within the **30-day** deadline, except for a Medicare or Medicaid entitlement event, in which case you must make changes within 60 days of the event.

You must include documentation to substantiate your qualifying event. If you miss the deadline, or do not provide the supporting documentation, changes will not be approved. Please contact Human Resources within **30 days** if you have any questions or believe that you may qualify for an election change.

**Note:** In the event that you miss the **30-day** deadline to report a qualifying event, Team Select is unable to retroactively make changes to the enrollment due to IRS tax regulations (including any monthly costs which the employee may have incurred).

### Reviewing and Updating Your Beneficiaries

Regularly updating beneficiary designations for financial accounts like life insurance and retirement plans is crucial to ensuring assets go to intended recipients.

There are primary beneficiaries, who receive assets and benefits first, and contingent beneficiaries, who receive them if the primary beneficiaries are unavailable.

To avoid common errors, update beneficiary designations after significant life changes, such as marriage, divorce, death of a spouse or child, birth of a child or similar event that alters your family. You should also update your beneficiary listing if a beneficiary changes their name (e.g. marriage).

Seek guidance from your HR department if you are unsure of how to make changes to your beneficiaries.

# Terms and Definitions

Before reviewing our benefits, take a look at some terms that may be helpful in understanding and comparing the plans offered to you. By learning a few key insurance terms, you'll be more informed and better able to understand what, exactly, goes into your insurance coverage.

**Deductible:** The amount of healthcare costs you have to pay for with your own money before your plan will start to pay anything.

**Embedded Deductible:** An embedded deductible assigns a separate deductible to each covered individual within a family, with benefits applied after the individual deductible is met. This may or may not apply to your plans.

**Shared Deductible:** A shared deductible combines individual deductibles within a family, requiring the total expenses for covered services to reach a combined threshold (the family deductible) before insurance coverage begins. This may or may not apply to your plans.

**Coinsurance:** After the deductible (if applicable), you and the plan share the cost. For example, if the plan pays 80%, your coinsurance share of the cost is 20%. You are billed for your coinsurance after your visit.

**Copay:** A set fee you pay instead of coinsurance for some healthcare services, i.e. a doctor's office visit. You pay the copay at the time you receive care.

**Out-of-Pocket Maximum:** Protects you from big medical bills. Once costs "out of your own pocket" reach this amount, the plan pays 100% of most eligible expenses for the rest of the plan year.

**In and Out-of-Network:** In-network services will always be the lowest cost option. Out-of-network services will cost more or may not be covered.

**Balance Billing:** In-network providers are not allowed to bill more than the plan's allowable charge, but out-of-network providers are. For example, if the provider fee is \$100 but the plan allows only \$70, an out-of-network provider may bill YOU the extra \$30. This is called balance billing.

# Save with Value-Based Pricing

We're always working to ensure providers are charging a fair price for medical procedures. That's why we utilize Value-Based Pricing (VBP) plans, designed to take care of members while reducing out-of-pocket costs.

## What is Value-Based Pricing?

Unlike the PPOs, HMOs, and other plans you may be familiar with, VBP is designed to lower medical costs for you and DSG. Value-based pricing is a transparent way of determining how much hospitals will be paid for certain services.

With VBP, the health plan sets a maximum price it pays for certain medical procedures (the "reference price"). The reference price is based on the amount Medicare pays for the same procedures plus a percentage. The maximums are set with location in mind, so they differ based on where you live.

Sample Procedure	Traditional Health Plan	Our VBP Plan for 2025
<b>STARTING PRICE</b>	\$75,000 (what the hospital wants to bill)	\$15,000 (what Medicare would pay)
<b>PLAN PRICE</b>	\$45,000 (hospital agrees to 60% of the bill)	\$22,500 (hospital agrees to 150% of Medicare)
<b>COINSURANCE</b>	You pay 20%	You pay 20%
<b>YOUR BILL</b>	\$9,000**	<b>\$4,500**</b>

\*\*You pay the listed deductible and coinsurance, up to the annual out-of-pocket maximum.

## Hospital Care & Emergency Care

Value-based pricing is a transparent way of determining how much hospitals will be paid for certain services, such as procedures. It works by reimbursing hospitals based on a reference price: *Medicare* (plus a percentage). Because it is fully transparent and based on costs, the end result is a price that is fair to both the hospital and the patient. Value-based pricing provides open access to facilities with no network restriction.

**PRE-CERTIFICATION IS REQUIRED:** To receive maximum benefits, please call 5-10 days prior to ALL inpatient admissions and outpatient hospital services. In the event of a true life-threatening emergency, please visit the nearest hospital for your care. *Call within 48 hours after an emergency admission.* Prior notification is recommended for pregnancy admissions. The facility is advised during the pre-certification process of the price allowed by the plan. You will be responsible for your deductible/coinsurance.

***Please call (877) 499-1774 or visit [www.lucenthealth.com/precert](http://www.lucenthealth.com/precert). Pre-certification is not a guarantee of benefits or payment.***

In some cases, you may be advised that a facility other than the one recommended by your physician would provide a better benefit under the plan. If possible, it is better to go with a facility that works well with the plan. If you have any questions regarding which facility to use, please contact the **Narus Concierge** at (888) 585-3309 for assistance.

# Value-Based Pricing: Q&A

## How Do I Find a Facility?

Your physician will normally recommend a facility for the procedure. Your treatment will be pre-certified based on the plan guidelines. The price the plan will allow for the procedure is based off the rates established by Medicare. The facility is advised during the pre-certification process of the price allowed by the plan. You will be responsible for your deductible/coinsurance.

In some cases, you may be advised that a facility other than the one recommended by your physician would provide a better benefit under the plan. If possible, it is better to go with a facility that works well with the plan. If you have any questions regarding which facility to use, please contact the Brown & Brown Concierge for assistance.

## What Happens When I Receive a Bill?

How do I know that my bill is correct? When you receive a bill from the facility, ALWAYS compare it to the Explanation of Benefits (EOB) from Lucent Health. If the amount on the bill does not match the EOB, you are being balance billed.

What should I do if I receive a balance bill? If a billed amount does not correspond directly with the amount reflected on your EOB, contact Narus Health immediately at (888) 585-3309! You will never be responsible for more than your plan's out of pocket maximum.

Your EOB looks like this:

# Medical

Our medical plan benefits are provided through **Lucent Health** through your choice of the **PHCS Network** or the **Cigna Choice Fund PPO Network**. The table below outlines how some of the most common services are paid when using our medical plans. While the PHCS network is *open access*, meaning that all claims are paid at the “in-network” level no more where you go for care, the Cigna Choice Fund PPO Network does have in and out-of-network benefits. You will pay less for care when you see an in-network physician.

# Health Savings Account

If you are enrolled in our **HDHP Plan** and have elected a Health Savings Account (HSA), your contributions are tax-exempt, meaning you save on both FICA and Federal taxes when contributing through payroll. Your HSA funds can be used to pay for unreimbursed medical, dental or vision expenses for you and your dependents, whether or not they are covered by your health plan. You can even use funds to pay for COBRA, long-term care, and Medicare (but not Medigap) premiums. Your HSA works like a personal bank account – no 'use-it or lose-it' rule. Funds remain in your account until needed, even if you change jobs or retire.

The HSA is not an automatic feature of enrolling in a HDHP; it is a separate application that you must make with **Pinnacle**. If you would like to set up direct deposit into your HSA, you must provide payroll with your HSA account and routing numbers. Similar to other direct deposits you may already have, you can increase, decrease, start or stop your HSA contributions throughout the year.

## Who is eligible to open and fund an HSA?

Anyone who is:

- covered by a qualified HDHP (HSA OAP); and
- not covered under another medical plan that is not a qualified HDHP – including Medicare, Medicaid, TriCare, VA and/or a Health Care Flexible Spending Account (FSA), including a spouse's FSA.

## How much can I contribute to an HSA?

The IRS sets a contribution limit every calendar year.

*For 2024, the contribution limits are:*

- \$4,150 for Individual Coverage – just you on the plan
- \$8,300 for Family Coverage – you and any number of dependents

*For 2025, the contribution limits are:*

- \$4,300 for Individual Coverage – just you on the plan
- \$8,550 for Family Coverage – you and any number of dependents

If you're age 55 or older, you can contribute up to \$1,000 more than the limits listed here

## What if I establish an HSA mid-year?

Your HSA contributions are generally determined on a monthly basis. If you establish an HSA mid-year, you're allowed to make the full year's contribution, provided you are eligible on December 1 of that year and you remain eligible to make HSA contributions throughout the next calendar year.

**How do I make contributions to my HSA?** You can contribute to your HSA through payroll deductions.

**Where can I find a list of qualified expenses?** Refer to the list found at [irs.gov](https://www.irs.gov) – search Publication 502.

## When can I start using the funds in my HSA?

You can use the funds in your HSA once they are available. You can reimburse yourself for qualified HDHP expenses months or even years later if you retained receipts and your HSA was established when the expense occurred.

## Can I use my HSA to pay for non-qualified expenses?

Non-qualified expense withdrawals are subject to income tax and a 20% penalty until age 65. After age 65, non-qualified expense withdrawals are penalty-free, but remain subject to income tax.

## What happens to my HSA if I leave my employer?

The HSA is yours to keep. If you continue to meet the eligibility criteria for funding the account, you can continue making contributions to your HSA. If you are no longer eligible to fund the account, you're still eligible to spend the money (tax-free) on qualified expenses.

## Can I use the money in my HSA to pay for my dependents' health care expenses?

You can use the money in your HSA to pay for the health care expenses belonging to your eligible spouse and/or dependent children – even if they are not covered as your dependents. Refer to Internal Revenue Code Section 152 to determine if your spouse and/or child is an eligible dependent.

## Can couples establish a "joint" HSA and both make contributions, including "catch-up" Contributions?

"Joint" HSAs are not permitted. Each spouse should consider establishing an HSA in his or her own name. This allows you to both make catch-up contributions when you are age 55 or older.

# Dependent Care Flexible Spending Account

You have the opportunity to pay for out-of-pocket dependent care expenses with pre-tax dollars with a Dependent Care Flexible Spending Account (DCFSA) through **Pinnacle**. Such expenses include preschool, summer day camp, before or after school programs, and child or adult daycare. It's a smart, simple way to save money while taking care of your loved ones so that you can continue to work.

Contributions to your DCFSA come out of your paycheck before any taxes are taken out. This means that you don't pay federal income or FICA taxes on the portion of your paycheck you contribute to your FSA. As soon as your account is funded, you can use your balance to pay for many eligible dependent care expenses. You may only use the funds that are available in your account, not the entire election amount.

You should contribute the amount of money you expect to pay out-of-pocket for eligible expenses incurred during the plan year. Any money remaining in the account when the grace period ends is forfeited; this is the "use-it or lose-it" rule.

Do your homework and consider known expenses. Make an informed decision when you elect your contribution for the year. DCFSA elections can only be changed during Open Enrollment or due to a Qualifying Event.

**IMPORTANT NOTE:** If you will be funding an HSA, you cannot participate in the Health Care FSA. Per IRS guidelines, FSA contributions must be elected every year.

**Plan Year:** December 1, 2025 – November 30, 2025

**2024 Dependent Care Annual Contribution Limit:** \$5,000

## Dependent Care FSA

A Dependent Care FSA is used to reimburse work related expenses while you or your spouse work, look for work or attend school full-time and are physically unable to care for your dependent. Eligible expenses cover care for children under 13 or dependents unable to care for themselves. This includes daycare, preschool, and before/after school programs. Funds are payroll deducted and are not pre-loaded onto a debit card.

# Health & Wellbeing Resources

It's important to know what benefits you have when a question comes up. Whether it's finding free counseling or managing your finances, help is available through your Team Select Home Care health and well-being benefits as well as several national resources.

# GROUP ACCIDENT INSURANCE

## Expense-Based Coverage

### Value of Accident Insurance

- Pays a lump sum cash benefit for covered expenses due to accidental injuries
- Spouse and children coverage available
- Pays in addition to other insurance
- Affordable premiums, conveniently payroll deducted
- Benefits are portable, take it with you if you leave or change jobs

### Help protect your family from the out-of-pocket costs of an accident

Atlantic American Employee Benefits' Accident insurance plan complements your group health insurance and covers unexpected expenses that result from all kinds of accidents, even sports-related and household ones.

Our simple-to-use, expense-based plan, has no schedule of benefits, and eligible services related to the original accident are covered, even if they're incurred on different days or with different providers. Think of it as "one bucket" of money you could use, to pay for deductibles and copays. It pays 100% of eligible services and supplies related to an accidental injury (unless covered by workers' compensation or similar law) up to the benefit limits.

**\$1,644**

average deductible single coverage, up 79% over 10 years

### How can Accident insurance help?

#### Medical expenses:

- Copayments
- Deductibles
- Other care you are financially responsible for under your medical plan

#### Non-medical expenses while recovering:

- Groceries
- Rent or mortgage
- Car payments
- Childcare

## How does Accident insurance work?

If you had an accident, your health insurance covers some costs, after you meet your deductible. But you still may have copays and a lot of out-of-pocket expenses. With Atlantic American Employee Benefits' Accident insurance, you can receive a cash payment when you have a covered accident or injury.

### 1 You have an accident & receive treatment

You accidentally get injured, leading to more than one medical appointment, on different days, over the course of several weeks. Pretty soon you have several invoices, from more than one provider.

### 2 You receive a check from us

Before you even see what your health insurance will pay, you submit to us, copies of all your invoices. With approval, we pay you one check, for total billed charges, up to your annual benefit limit.

### 3 You get back out there

With our easy claims process, you're in receipt of money fast. Now you can pay provider balances, left by your health plan's deductibles, coinsurance and unpaid out-of-network charges.

## What are the common charges associated with an accident?

- Urgent care
- X-ray
- Treatment for fractures, sprains, strains
- Physician office-follow-up visit
- Childcare while recovering

You are not alone when you have Atlantic American Employee Benefits' protection. Care is important. And so is your Atlantic American Employee Benefits' Accident insurance.

# GROUP CRITICAL ILLNESS INSURANCE

## Cancer Coverage

### Value of Group Critical Illness with Cancer Coverage

- Cash benefits for a diagnosis of invasive and non-invasive cancers
- Affordable premiums paid through payroll deduction
- Coverage is guaranteed with no medical questions asked
- No restrictions on network or medical provider
- Benefits are portable, take it with you if you leave or change jobs

### Protection that may help ease the financial, mental, and emotional burden that comes with cancer

Cancer can affect anyone — and treatment can be costly. While cancer survival rates are on the rise, out-of-pocket costs pose a substantial economic burden to patients and their families. In fact, the average out-of-pocket cost for a person battling cancer is estimated to be \$2,598 a month<sup>1</sup> with cancer patients 2½ times more likely to declare bankruptcy than healthy people.<sup>2</sup> Even with the best medical plan, you can be left with unexpected costs. Deductibles, out-of-network treatments, home health care needs and travel are just some of the costs you could face if diagnosed with cancer, leaving you with reduced savings.

<sup>1</sup><https://bit.ly/3Ck4dGd>

<sup>2</sup><https://bit.ly/2WZZ9GT>

### Benefits can help you pay for:

- Your medical plan's annual deductible
- Daily expenses, like food and utilities
- Non-medical expenses resulting from treatment
- Contractor fees for home modifications, such as a wheelchair ramp
- Alternative and experimental treatment

**Age-based rates for this coverage can be found in your HRIS platform**

## How does Critical Illness with Cancer coverage work?

It's estimated that there will be approximately 1.9 million new cancer diagnoses in 2021 or 5,200 new cases per day.<sup>3</sup> With Atlantic American Employee Benefits' Critical Illness with Cancer coverage, you can help protect your finances if faced with an unexpected cancer diagnosis.

<sup>3</sup><https://bit.ly/2VAguoR>

### 1 You're diagnosed with cancer

After you or a covered family member are diagnosed with cancer, you present the diagnosis to Atlantic American Employee Benefits for verification.

### 2 You receive a check from us

With approval of your claim, Atlantic American Employee Benefits pays you a cash benefit. With this added comfort of financial protection, you can seek medical care outside your medical plan's provider network or even seek experimental treatment.

### 3 You're looking forward to the future

After treatment, you'll need to recover and you may still need time off for follow-up appointments and checkups. With the cash benefits you can receive, you can feel empowered knowing you can transition back into work, replace lost wages, pay for daily expenses and rest a little easier.

## How would you pay for expenses related to treating cancer?

In addition to treatment costs, there are typically many other related expenses to consider. Common charges associated with treating cancer:

- Transportation to medical appointments
- Travel and air for second opinion
- Lodging while receiving treatment
- Lost wages from reduced work schedules
- Caregiving costs for yourself or children

With cancer-related costs estimated to increase by 34% by 2030<sup>4</sup>, purchasing this coverage may help provide the financial protection you need.

## Value of Hospital Indemnity Insurance

- Cash benefit for unplanned or uninsured expenses resulting from a hospitalization due to sickness or injury
- Premiums are convenient and paid through payroll deduction
- Coverage is guaranteed with no medical questions asked
- There are no deductibles, no copayments and no network restrictions
- Benefits are portable, take it with you if you leave or change jobs

## Everyone deserves protection against hospital bills

Hospital stays can be pricey, and often unexpected. Even the best medical plans can leave you with extra expenses to pay or services that just aren't covered. Things like plan deductibles, copays, extra costs for out-of-network care, or non-covered services. Many people aren't prepared to handle these extra costs, so having this extra financial support when the time comes may mean less worry for you and your family.

**16.2 MILLION**  
ER visits that become  
hospital admissions

<https://bit.ly/2UfpFug>

## Benefits can help you pay for:

- Costs that are not covered by health plans
- Deductibles and copays left by major medical insurance
- Lost income while receiving care or replace a spouse's income while they're by your side
- Out-of-network costs for alternative treatment
- Travel for care and treatment, or even a second opinion
- Contractor or handyman to make changes to your home after an illness, such as a wheelchair ramp

# Pet Insurance for Dogs & Cats

## What if my pet gets hurt or sick?

Like our own health crises, pets' medical emergencies never happen when you expect them. Many times, an unexpected vet bill means a big debt or drained savings. Or even saying no to treatment. Pet insurance reimburses you for covered veterinary bills, so you can focus more on your pet's care—not the cost.

## What does pet insurance cover?

Veterinary pet insurance typically covers pets for injuries and illnesses. With ASPCA® Pet Health Insurance, you can also cover your pet for hereditary and congenital conditions, alternative therapies, behavioral issues, and, for just a little extra per month, preventive care.

## How much does it cost?

As a Team Select employee, you're eligible for preferred pricing on coverage for your pets through ASPCA pet insurance. Your premium will depend on the plan you choose, your geographic area and the breed, species and age of your pet.

For more information, contact ASPCA at (877) 343-5314 or visit [www.aspcapetinsurance.com/teamselect](http://www.aspcapetinsurance.com/teamselect); enter discount code: PETI8TSHC.

This benefit is a discount program; you pay ASPCA directly.

Available to all employees and members of their household, including children up to age 26.
